PRODUCT DESCRIPTION

Power surges are the silent killer for home appliances and HVAC equipment. Most homeowners protect their electronics but leave more valued equipment unprotected. Surges can wipe out equipment and leave you searching for answers. Search no more. The easy-to-install AG3000G Surge Protective Device (SPD) is the perfect add-on for HVAC equipment. A green LED indicator will be on when the SPD is operating correctly. A red LED indicator will be on when protection is diminished, and the SPD needs to be replaced. Trusted, state-of-the-art TPMOV® (Thermally Protected Metal Oxide Varistor) technology eliminates the potentially hazardous failure modes commonly associated with standard MOV technology. UL Listed to ANSI/UL 1449, 5th Edition.
