

Accessory - Dark Sensor 10 to 1000 fc

Item LS2

PRODUCT DESCRIPTION

The LS Series Ambient Light Sensors detect the amount of natural or ambient light that is available. These sensors themselves do not perform the switching ON/OFF of the loads, allowing for them to outlast typical photocontrols. These sensors detect the amount of light that is available and provide that information to the control modules which in turn perform the switching operations. These sensors are available for both direct and indirect exposure to ambient light. Typically, the dark sensor is used for direct exposure to light, while the transparent sensor would be ideal for indirect exposure to light.

FEATURES

- ▶ Transparent and opaque sensors for all lighting applications
- ▶ One sensor can provide a signal for up to 10 LightMaster™ control modules
- ▶ Accurate, reliable measurement for precise foot-candle light-level settings
- ▶ IP65 cases
- ▶ 1-year limited warranty

TECHNICAL DATA

General	
Model Number	LS2
Description	Dark Sensor 10 to 1000 fc
UPC Code	614573058599
Brand	Intermatic
Country of Origin (Intermatic)	GERMANY
Warranty Period	1-Year limited
Packaging	
Shipping Weight (lbs)	0.14
Unit Carton Dimensions (H x W x L) in	2.25 x 3.25 x 3.25 in
Standards and Certifications	
California Proposition 65	None
RoHS Certification	N/A
