PE733P	3										

## Features & Benefits

### BUILT FOR EXTREME OUTDOOR ENVIRONMENTS

Engineered to perform in temperatures ranging from -40° F to 158° F with a rugged, weather-resistant Type 3R plastic enclosure, perfect for demanding indoor and outdoor pool pad installations.

### PROGRAMMABLE FLEXIBILITY

Control pumps, lights, and auxiliary loads with support for SPDT or DPDT relay outputs. Configure multiple high-load systems from one centralized timer.

### APP & VOICE-CONTROLLED CONVENIENCE

Easily manage pool and spa equipment with the Intermatic Connect app or Alexa. Remotely turn circuits ON/OFF or schedule ON/OFF events every day with 7-day programming.

### LONG-RANGE WI-FI

Offers industry-leading Wi-Fi range up to 180 ft (line of sight)

### SIMPLE RETROFIT WITH LEGACY ENCLOSURE COMPATIBILITY

Designed with knockout locations and dimensions that align with existing Intermatic enclosures, allowing for seamless upgrades or replacements without major rewiring.

### AUTO-VOLTAGE DETECTION

Automatic voltage detection from 120-277 VAC (50/60 Hz) for simple installation and retrofitting

### FREEZE PROTECTION (OPTIONAL)

Safeguard pool equipment by automatically activating the pump when ambient temperatures drop to a user-defined threshold. (Model# PE700-FP)
