

# A UL-Listed Solution That Saves Time and Money No Assembly Required

Although many contractors use UL-listed components to build lighting control solutions from scratch, they don't realize that the final assembled product is not technically code compliant, according to UL. This common misconception puts installers at risk and wastes valuable time in the field.

To streamline installations and ensure code compliance, Intermatic created the Electronic All-Purpose Contractor Box. It offers everything contractors need to get projects off the ground in a ready-made, UL-listed solution.

## A La Carte Lighting Control Solution **VS.** Electronic All-Purpose Contractor Box

- ✓ Not UL-listed
- ✓ Requires additional assembly time
- ✓ Inconsistent parts, sourcing
- ✓ No warranty

- ✓ UL-listed out of the box
- ✓ Instant time savings (30-60 mins)
- ✓ Heavy-duty functionality
- ✓ 2-Year limited warranty

### Includes:

- Dead-front enclosure
- 365-Day Astronomic timer control
- Terminal strip
- 60 A 3-pole contactor
- 1/2" and 3/4" knockouts
- Mounting brackets

Switch to the **Electronic All-Purpose Contractor Box** today to simplify contactor box installations.
