Easy. Accurate. Instant.

Wire Gauge Measurement Tool for Utility Professionals

Take the guesswork out of measuring distribution power line wire gauges with the D.A.W.G. (Digital Automatic Wire Gauge Device) from Intermatic. The time-saving solution combines a digital measuring device with an intuitive mobile app, which allows professionals to easily and accurately record wire gauge sizes in a wide range of applications via a smartphone or tablet.

Features & Benefits

- **Digital Precision** – The D.A.W.G.'s state-of-the-art digital measurement device reduces the likelihood of human error and ensures accuracy from one project to the next.
- **Seamless App Integration** – Record, share, and analyze wire gauge data in real time using the Intermatic D.A.W.G. app.
- **Image Capture & Storage** – Streamline inspections by saving high-resolution images directly on your smartphone or tablet. Capture visual evidence of wire conditions, document site conditions, and integrate images with measurement data for comprehensive reporting.
- **User-Friendly Interface** – The D.A.W.G. features an easy-to-read digital display and simple controls, making it accessible to both seasoned professionals and newcomers in the field.
- **Versatile Application** – An ability to handle a wide range of wire gauges from various distribution lines makes the D.A.W.G. a perfect tool for fieldwork, maintenance, and inspections.
- **Durable and Reliable** – The D.A.W.G. features a rugged design, promoting consistent performance in a variety of outdoor settings. Includes protective case for safe storage when not in use.
- **Battery Powered** – A long-lasting rechargeable battery allows professionals to use the D.A.W.G. for extended periods.

The Intermatic D.A.W.G. app

From Field to Smartphone in Seconds

Step 1

Pair the D.A.W.G. device with your smartphone or tablet using built-in Bluetooth® technology

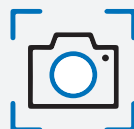

Step 2

Attach the D.A.W.G. to the desired distribution power line for an instant, accurate reading

Step 3

Review the reading via the Intermatic D.A.W.G. app, collect additional photos and data that can be saved and exported for future use.

Enhanced Data Management

Easily manage, analyze, and share measurement data and images through the Intermatic D.A.W.G. app. Conveniently track jobs and generate reports from the field.

Built-in Efficiency

Integrated Bluetooth® technology helps the D.A.W.G. deliver fast, accurate readings and allows utility professionals to complete tasks faster.

Reliable Readings

Ensure reliability with each measurement. The accuracy of the D.A.W.G. allows user to minimize errors.

Ideal For

Utility Companies • Municipalities • Field Technicians
• Electrical Inspectors • Utility Maintenance Crews
