REACH Compliance Declaration

Dear Valued Customer,

The products that Intermatic supplies do not contain any of the Substances of Very High Concern (SVHCs) identified in the REACH Regulation.

All our products and materials are compliant with Article 33 of the European Community Regulations on Chemicals, "REACH," Regulation No. EC1907/2006 with updated SVHC list of 01/2023 containing 233 items.

Intermatic does not independently conduct analytical testing for REACH and the information on this letter is based upon data from our supply chain sources which is believed to be reliable and accurate.

In order to meet the obligation to supply information under Article 33 of the REACH regulation, we proceed as follows: We are in regular contact with the suppliers of relevant raw material used within our products. Furthermore, suppliers provide us with a written advance ruling if listed SVHC materials over 0.1 mass percentages are included in the raw materials.

The EU supplier of products, which will be processed in relevant dimensions in our products, are as well committed to inform us unrequested and without delay, provided that the products they deliver contain SVHC material over 0.1 mass percentage.

In case we receive such information of our suppliers and we gain knowledge that for this reason, our products will also exceed the 0.1 mass percentages for SVHC material, we will inform you without further delay.

With all non-EU suppliers of products, which will be processed in relevant dimensions in our products, we make separate arrangements because they are not automatically liable to the duty to supply REACH information.

Therefore, non-EU suppliers have to assure in written that they will inform us immediately in case the delivered products exceed the 0.1 mass percentages for SVHC material.

To the best of our knowledge, all products manufactured by Intermatic or product packaging do not contain any of the Substances of Very High Concern (SVHC) with a mass concentration of more than 0.1% in accordance to Article 33 of the REACH-Regulation EC 1907/2006.
