

EI-200 Series

Countdown Timers

Countdown Convenience On the Double

Bring automatic energy savings to residential and commercial applications with the EI-200 Series Countdown Timer from Intermatic. These modern in-wall controls allow users to turn lights and loads off at preset intervals, making them the perfect choice for limited-use lighting applications (e.g., supply closets, storage facilities) as well as bathroom exhaust fans, whole-house fans, and more.

FEATURES & BENEFITS

- **Modern Aesthetic** – EI-200 Series Countdown Timers feature a contemporary decorator-style design and can be modified to match a variety of interior color schemes.
- **Simple Control with DoubleTime** – An innovative five-button design with a built-in DoubleTime feature allows users to select preset countdown intervals ranging from 5 minutes up to 8 hours max.
- **Quiet Operation** – Unlike spring wound controls, the EI-200 Series operates in silence with an LED indicator to show the countdown timer is activated.
- **Stress-free Installation** – Interchangeable line and load leads help prevent miswiring in the field.
- **Automatic Off** – Timer will shut off automatically after 24 hours to conserve energy if accidentally left ON.

APPLICATIONS

The EI-200 Series supports CFL, Fluorescent, Incandescent, and LED loads up to 10 A loads and offers a motor load rating of 1/2 HP (1 HP on the EI-221-WLA).

- Indoor Lighting
- Rental Properties
- Storage Units
- Bathroom Exhaust Fans
- Supply Closets
- Whole House Fans
